

Effects of Energy Transfer

Across

- 3. Coal, oil, natural gas
- 4. Long chains of carbon molecules.
- 8. Energy that is extracted from heat stored within the Earth.
- 9. An element used for making solar panels.

10. Can be used again.

Down

- 1. Energy from water.
- 2. Can not be used again.
- 5. Using the sun for energy.
- 6. Energy from wind power.
- 7. Usable power.
