

# Electrical Technology

## Across

3. conductor of electricity  
 6. Production of power  
 9. Use to represent a thousand  
 10. Use to measure power  
 11. terminate conductors

13. symbol 'V'  
 15. connection of consumer to power supply

## Down

1. Use to measure current  
 2. Step down/up voltages  
 4. Occurs when no power is present

5. Light natural or artificial  
 7. strip insulation from conductor  
 8. Use of sunlight to produce energy  
 12. Open or break a circuit  
 14. measures electrical resistance
