

Name: _____

Electricity and circuit

Across

- 3. Combination of electric cells
- 4. S.I unit of resistance
- 6. S.I unit of frequency
- 9. In electric bulb ,electrical energy is converted to

- 10. Electric wires are covered by
- 11. Electricity cannot pass through it
- 12. Filament of bulb is made of -
- 13. Resistance is opposite to -

Down

- 1. S.I unit of current is

- 2. Energy per unit charge
- 5. It allows current to pass through it
- 7. Electric cells produce electricity from
- 8. Charge is -
