

# Electricity

**Across**

2. A light or other object that uses electricity is a \_\_\_\_\_.

5. An example of a power source could be a \_\_\_\_\_.

6. \_\_\_\_\_ is a good insulator.

8. Thomas \_\_\_\_\_ invented the light bulb.

9. A controlled flow of electrons is \_\_\_\_\_ electricity

11. Materials that electrons can NOT easily pass through are \_\_\_\_\_.

13. Materials that electrons easily pass through are \_\_\_\_\_.

14. Most \_\_\_\_\_ are good conductors.

**Down**

1. There are two ends of a battery, negative and \_\_\_\_\_.

3. Ben \_\_\_\_\_ put a key on a kite to conduct electricity in a storm.

4. Electricity is the transfer of \_\_\_\_\_.

7. Lightning is an example of \_\_\_\_\_ electricity.

10. The positive particles in the nucleus of an atom.

12. Electrons have a \_\_\_\_\_ charge.
