

Electronic Systems & Control

Across

- 4. connects to two individual circuits
- 6. What preforms the function?
- 8. pushing a button down to close the circuit or to open the circuit
- 9. Electronic components that act like one-way valves
- 10. What sense change of conditions ?

Down

- 1. what has revolutionized modern living?
- 2. what type of switch has two switching options
- 3. What controls the flow of the current into the system?
- 5. Consists of only one switching position and one pair of metal contacts
- 7. Convert electrical energy into light energy
