# Energy

## Across

3. holding something together

8. nuclear reactions heat the sun's core to about \_\_\_ degrees Fahrenheit

10. energy at rest

11. energy of motion

12. what energy from the sun has changed into different forms

## Down

1. what allows things to work/move

2. how many forms of energy

4. one way to measure chemical energy

5. energy from the sun

6. when does a ball lose its kinetic energy

7. using a force to move something

9. what is energy stored in
