

Energy

Across

- 2. energy of moving electric charges
- 5. stored energy that an object has due to position
- 9. natural fuel such as coal or gas
- 13. the energy of moving objects
- 15. when energy is transferred some is always lost or wasted as heat
- 16. any material from living things that can be used as an energy source

18. energy stored in the nucleus of an atom

20. energy that travels as waves

Down

- 1. energy stored in bonds that hold atoms together in molecules
- 3. a resource for energy that cannot be replaced when used
- 4. natural resources that can be used over and over many times

6. how well a product transfers energy to its desired purpose

7. heat energy from inside the earth that is used to produce energy

8. nuclear waste that stays radioactive for years

10. energy from the sun

11. energy of moving water

12. energy from moving air

14. energy of moving particles

17. a radioactive rock

19. to make things move or change
