

Name: _____

Energy Sources

Across

- 2. Energy in motion
- 4. Heat energy
- 5. The energy involved in a bond between two atoms
- 8. Energy that moves through a series of vibrating molecules
- 9. Energy stored

10. Energy made for consumption and to be used

Down

- 1. The potential energy of an electric or magnetic field
- 3. The ability to do work
- 6. Type of energy stored and originally made from water
- 7. The type of energy created by the sun and light
