

Name: _____

Date: _____

Engineering

Across

- 3. This engineering innovates radar systems
- 4. This engineering deals with electronic things
- 5. This engineering involves knowledge based systems
- 6. This engineering designs robots
- 8. This engineering decides the value of goods
- 11. This engineering designs boats
- 12. This engineering works on telecommunications
- 13. This engineering builds nuclear power plants

14. This engineering deals with animals

16. This engineering makes the assembly line work more efficiently

18. This engineering makes the Iphone better

21. This engineering works on Computer applications

23. This engineering works on the internal electronic components of the computer

24. This engineering innovates products

25. This engineering also works on HVAC systems

Down

1. This engineering helps structures

2. This engineering invented the underground aquifer

7. This engineering designs satellite systems

9. This engineering invented the Light Bulb socket

10. This engineering made the airplane

15. This engineering helps processes and functions

17. This engineering works on HVAC systems

19. This engineering works with vessels and boats

20. This engineering designs yachts

22. This engineering works with air conditioners
