# Enzymes

## Across

8. catalyze

structural changes  
within a molecule

10. digests

disaccharides to  
monosaccharides

11. digests complex  
sugars and starches

12. breaks down  
carbohydrates

## Down

1. catalyze

oxidation or  
reduction reactions

2. breaks down  
proteins

3. breaks down  
lactose

4. transfer of a  
functional group

5. breaks down fats

6. breaks down  
proteins into peptides

7. breaks down  
cellulose

9. used in  
hydrolysis
