

Name: _____ Date: _____

Evolution Of Computing

1. What is storage ?
 2. What is Processing ?
 3. What is Output ?
 4. What are Input Devices ?
 5. Output Devices
 6. C: Drive
 7. D: Drive
 8. CD
 9. DVD
 10. RW
 11. Recordable
 12. Modem
 13. Graphical User Interface(GUI)
 14. Monitor
 15. Mouse
 16. CD (ROM)
 17. data
 18. communication
 19. Sector
 20. Group of sectors
 21. Track
 22. Hard Disk
 23. information
 24. Tape Drive
 25. Tape Cartridges
- A. Devices putting information
 - B. Sorting out data
 - C. digital video disk
 - D. write data
 - E. Numerical Data
 - F. recording and for data
 - G. compact disk
 - H. Archiving large data
 - I. Numbered concentric circle
 - J. send and receive messages
 - K. used to input commands
 - L. information processing cycle
 - M. can write to the disk
 - N. CDs and DVDs
 - O. conveys meaning
 - P. stores results or saves files
 - Q. metal platters
 - R. Cluster
 - S. hard drive
 - T. Rewritable
 - U. interface that displays
 - V. displays text and graphics
 - W. put out information:
 - X. unprocessed items
 - Y. Numbered Section
