

# Exploring Tide Pools

## Across

2. a large, tough brown seaweed
4. small pool of water left along a rocky shore at a low tide
6. an animal hunted or caught for food
7. to change in order to survive
9. an animal that feeds on dead and decaying plants and animals
10. the regular rise and fall of ocean waters onto and away from the seashore

## Down

1. a long, thin feeler sea creatures use to get food
3. a type of algae that grows in seawater
5. a gas that is part of the air we breathe
8. plants that live in the water and have no roots, leaves, or stems
