

# Final Project Crossword Puzzle

## Across

2. Interaction between two different organisms living in close physical association

5. Biology is the natural science that involves the study of life and living organisms, including their physical structure, chemical composition, function, development and evolution. Modern biology is a vast field, composed of many branches

9. An account of someone's life written by someone else

14. A microorganism

15. Microwatt is a power measurement unit. A microwatt is a derived metric SI measurement unit of power. The microwatt is equal to one millionth of a watt

17. The condition of having an abnormally low body temperature

18. Stiffness in the body

19. A gauge that measures small distances or thicknesses between its two faces, one of which can be moved away from or toward the other by turning a screw with a fine thread

20. An electromagnetic wave with a wavelength in the range 0.001-0.3 m, shorter than that of a normal radio wave but longer than those of infrared radiation. Microwaves are used in radar, in communications, and for heating in microwave ovens and in various industrial processes

## Down

1. The synthesis of substances by living organisms

3. The application of statistical analysis to biological data

4. A microscopic organism, especially a bacterium, virus, or fungus

6. A length of film containing microphotographs of a newspaper, catalog, or other document

7. An excess of glucose in the bloodstream

8. A way to see if you have a disease

10. One millionth of a gram

11. A unit of electromotive force or potential difference equal to one millionth of a volt

12. One millionth of a second

13. Intricate surgery performed using miniaturized instruments and a microscope

16. The animal and plant life of a particular region, habitat, or geological period
