# Five Themes of Geography

## Across

- 5. How people interact with adapt to, depend on and/or modify their where they live
- 11. In addition to people and things, these can also move from place to place (hint: think)
- 12. Includes both absolute and relative
- 14. Where one thing is in reference to another
- 15. People and ideas get around; The relocation of people through immigration, emigration and migration, and the import/export of goods and ideas

## Down

- 1. What do locations have in common. Regions have unifying characteristics. Types can be formal, functional or vernacular
- 2. To rely on trees for oxygen; harvesting fish for food
- 3. Aspects that indicate what someplace, something or someone is like
- 4. Reflects a service area or a task; Zip Code, WiFi hotspot
- 6. Using air conditioning; building roads

- 7. Using a snow mobile to get around; changing diet based on what is available
- 8. An exact address or a coordinate using GPS
- 9. Governmental or political boundaries; California, Panama, Los Angeles County
- 10. Reflect local aspect of a region; Dodger Country or the Redneck Riviera
- 13. What is it like when you get there; the personality of an area
