# Flow Cytometry

## Across

- 1. SSC
- 9. where is the sample injected
- 10. Light source
- 11. What do the detectors measure

- 12. What is it called when antibodies are excited

## Down

- 2. More sensitive than optical detector
- 3. FSC
- 4. Protein PTM measured

- 5. What controls detection in optics
- 6. Programmed cell death
- 7. What is plotted?
- 8. boundary placed around cells
