

Forces, Friction, Newton's Law Test Review

Across

- 2. Newton's 3rd Law
- 5. SI unit of measurement for force
- 7. Newton's 1st Law
- 9. Speed up, slow down, or change direction
- 11. Amount of matter in an object
- 12. Type of friction when an object moves through a fluid like water or air

13. Unbalanced netforce

15. A push or a pull

Down

- 1. Type of friction when an object rolls across a surface
- 3. Type of friction that must be overcome to move a stationary object.
- 4. Newton's 2nd Law
- 6. Object at rest wants to stay at rest

8. Force that 2 surfaces exert on each other when they rub against each other

10. Combo of all forces on an object

14. Balanced netforce
