

Functionalism

Across

2. Starts with the bigger picture and then breaks it down in to smaller parts.

7. Shared norms, values and beliefs in society that we all agree on. It is how social order is achieved.

10. How people feel connected to one another because they mostly all believe in the same norms and values.

Down

1. Organisations or groups of people who govern our behaviour.

3. The founding father of functionalism

4. Without social institutions, society wouldn't be able to _____

5. Theories that have a positive view on society; they view society as something that works together.

6. Everything and everyone in society has a _____

8. An agreement of the behaviours we live our daily lives by. Sort of like instructions.

9. The primary agent of socialisation
