

Name: _____ Date: _____ Period: _____

Genetic Matching

1. What is heredity?
 2. What is DNA?
 3. What is the genotype for a human female?
 4. When do organisms pass traits to their offspring?
 5. Are instincts inherited?
 6. Is the ability to read learned or inherited?
 7. What is the similarity between RNA and DNA?
 8. What is RNA?
 9. What is the definition of inherited?
 10. What is a genotype?
 11. What is a learned trait?
 12. What is an organism?
 13. What is genetic modification?
 14. What is an allele?
 15. What is a karyotype?
- A. Alternate forms of genes
 - B. 46-XX
 - C. Traits passed down
 - D. Passing of traits
 - E. Nucleic acid in living things
 - F. Reproduction
 - G. Genetic build up in a cell
 - H. Needed nutrients
 - I. Both nucleic acid
 - J. Has to be taught
 - K. Inherited
 - L. Collection of 46 chromosomes
 - M. Yes
 - N. Altered genes.
 - O. Single life form
