

Name: _____

Date: _____

Genetics

Across

- 4. segment of DNA
- 6. united sperm and ovum
- 8. same alleles
- 10. chemical making up chromosomes
- 11. commonly called fraternal

- 12. chemically marked alleles
- 13. directly observable characteristics

Down

- 1. each form of a gene
- 2. heterozygous individuals

- 3. genetic info determining species and characteristics
- 5. the same
- 7. created during meiosis
- 9. sudden, permanent change in DNA
