

Genetics Review

Across

4. if the dominant allele is present, individual is affected

8. sequences of DNA

9. a record of ancestors traits

11. specific characteristics that are coded from DNA

12. when the dominant allele does not completely cover the recessive allele

Down

1. traits that are controlled by two or more genes

2. must have 2 recessive alleles for disease to show up

3. alleles for a trait are the same

5. your genes appearance is revealed

6. alleles for a trait are different

7. Both alleles expressed- one is not dominant over the other

10. your DNA represented in letters
