

# Genetics and Heredity

## Across

4. copying of DNA  
 5. rewriting of DNA into RNA  
 11. substance made from a weakened disease  
 13. attached to thymine  
 14. exact copy

15. rules for attaching nitrogen bases

## Down

1. attached to guanine  
 2. adds bases to the DNA  
 3. enzyme that unzips DNA

6. subunit of DNA  
 7. two DNA strands that match up  
 8. error in DNA  
 9. base not found in DNA  
 10. making of amino acids  
 12. three letter code
