

Geo Term Blue Book Prep

Across

- 2. a soggy, swampy, slow-moving body of water, obstructed by vegetation
- 8. hill, mound, or ridge of sand formed by wind
- 9. a long deep hollow with steep, rocky sides worn by a stream or torrent of water
- 13. The distance of any place on the globe, north or south of the equator.
- 14. An artificial cut or passage for water used for transportation.
- 15. A high, steep almost vertical rock, usually on a coast.
- 17. a small inlet or bay; a recess in the sea shore
- 18. a deep natural hollow place in the earth, deeper than a cave

- 20. a vast sandy plain characterized by minimal precipitation and plant growth
- 21. a body of water interspersed with many isles

Down

- 1. an enclosed or partially enclosed shallow body of salt water divided from the ocean by low sandy dunes or a coral reef
- 3. an artificial cut or passage for water used for transportation
- 4. an arm of the sea, extending into the land, smaller than a gulf and larger than a creek
- 5. a neck or narrow slip of land by which two continents are connected or by which a peninsula is united to the mainland
- 6. land prepared for crops

- 7. a narrow hollow with steep, rocky sides worn by a stream or torrent of water
- 10. a field or an immense mass of ice formed in deep but elevated valleys, remaining frozen throughout the heat of summer
- 11. a shore of the sea or of a lake, washed by the tide and waves
- 12. an arm of the sea; the mouth of a river or lake where the tide meets the current
- 16. an extensive wood; a large tract of land covered with trees
- 19. a small natural stream of water; a current flowing from a spring
