

Geography vocabulary

Across

- 2. a piece of land completely surrounded by water:
- 4. a long piece of land that sticks out from a larger area of land into the sea or into a lake:
- 6. a lot of water on land that is normally dry
- 7. an area, often covered with sand or rocks, where there is very little rain and not many plants
- 10. a very large mass of ice that floats in the sea

- 11. a mountain with a large, circular hole at the top through which lava, gases, steam, and dust are or have been forced out
- 13. an extremely large wave caused by a violent movement of the earth under the sea
- 14. a large mass of ice that moves slowly
- 15. sloping raised land, especially along the sides of a river

Down

- 1. a forest in a tropical area that receives a lot of rain:
- 3. an area of low land between hills or mountains, often with a river running through it
- 5. the cutting down of trees in a large area, or the destruction of forests by people
- 8. one of the seven large land masses on the earth's surface, surrounded or mainly surrounded by sea
- 9. no rain for a long time
- 12. a wall built across a river that stops the river's flow and collects the water
