

Geomerty

Across

- 3. What is the location in space or dot on a piece of paper called?
- 6. What is the line segment between two points on a given curve called?
- 8. What is the intersection point of two sides of a plane figure?
- 11. What is a triangle with all sides equal and all angles equal?
- 13. what is it called when two angles have a common side and a common vertex?

14. what is it called when two angles equal the sum of 90 degrees?

15. What is an angle greater than 90 degrees but less than 180 degrees called?

16. what is a triangle that has three unequal sides and angles?

Down

1. What is a line segment that intersects (Cross) at an angle of 90 degrees?

2. what is it called when two angles equal the sum of 180 degrees?

4. curve on

5. What is the part of a line between two points called?

7. What is the distance from the center of a circle to any point on a circle's circumference?

9. what is a line with a single endpoint that extends infinitely in one direction called?

10. What is the distance around a circle (the perimeter)

12. What is the part of a curve?
