

Geometry Basics

Across

6. A surface that extends infinitely

7. (Symbol for perpendicular line)

10. Extends both directions infinitely

11. Has no size, width, length, or depth

12. Part of a line that has two end points

13. (Picture of intersecting lines)

Down

1. Three or more points in the same plane

2. Two rays with a common endpoint that form a 180 degree angle

3. (Symbol for parallel lines)

4. Three or more points on a single straight line

5. (Picture of the sign for an angle)

8. (Sign for congruent)

9. Extends infinitely in one direction
