

Geosphere and Atmosphere

Across

- 3. How do people affect the Geosphere?
- 5. Protects us from ultraviolet radiation
- 7. Envelope of gases surrounding the planet.
- 9. What occurs in the Troposphere?
- 10. Absorbs ionizing radiation

Down

- 1. What is the Troposphere made out of mostly?
- 2. The Earth's core, mantle, and thin outer crust. All the material above and below the surface that forms the planet's mass.
- 4. What layer is the troposphere on.
- 6. How many layers are in the Atmosphere?
- 8. What is the Troposphere made out of mostly also?
