

Glycolysis

Across

2. Gain of ATP in pay off phase
 9. End product of Glycolysis is
 10. Preparatory phase uses
 How many ATPs

Down

1. NADh is an
 3. name the reaction that
 phosphorylates sugars

4. Glyceraldehyde
 -3-phosphate is acted upon by
 5. Rate limiting step of
 Glycolysis
 6. transferase
 7. Glycolysis converts 6-c,
 Glucose to
 8. connecting link between
 Glycolysis and TCA cycle is
