

# Grade 7 Biology Revision

**Across**

- 2. Animals and plants are made up of many cells. Another name is \_\_\_\_\_?
- 3. The place a organism lives is called a \_\_\_\_\_?
- 8. A characteristic of a living organism is to multiply. This is called \_\_\_\_\_?
- 12. Arrows in a food web show the relationships between Producer and Consumer. This is also called the flow of \_\_\_\_\_?
- 15. We use common \_\_\_\_\_ for classification?
- 16. Food chains and food webs show the relationship between \_\_\_\_\_ and prey?

- 18. Vertebrates consist of Birds, \_\_\_\_\_, Fish, Reptiles and Amphibians.
  - 19. The start or base of a food chain/food web is called a \_\_\_\_\_?
  - 20. The green structures in a plant cell are called \_\_\_\_\_?
- Down**
- 1. An animal that has a backbone is called a \_\_\_\_\_?
  - 4. A person that studies living things is called a \_\_\_\_\_?
  - 5. A sign of life is Organisms that eliminate waste. This is called \_\_\_\_\_?
  - 6. The five kingdoms are: Animals, Plants, \_\_\_\_\_, Protists, and Fungi.

- 7. The characteristics used to determine whether something is living or not are: movement, \_\_\_\_\_, stimuli, growth, reproduction, excretion and nutrition.
- 9. Light, temperature, water, air and soil are all \_\_\_\_\_ factors?
- 10. In biology we use dichotomous \_\_\_\_\_ to identify organisms.
- 11. First major level of classification is called the \_\_\_\_\_?
- 13. Plants cells differ to animal cells as they have a cell \_\_\_\_\_?
- 14. An animal that only eats meat is called a \_\_\_\_\_?
- 17. All cells have have a brain like section called the \_\_\_\_\_?
