Hairdressing tools for a haircut and a blow-dry

Across

- 2.** Secure hair away
- 4.** The most famous heating equipment used to style the hair
- 6.** Removes small hair on the client's skin
- 9.** Used alongside the blower to stretch the hair in the new style
- 10.** It is used to open up curls to give the final touch

Down

- 1.** This has wider teeth than the normal one
- 3.** Used to thin, cut or texturize the hair
- 5.** Shows the result to the client
- 7.** Used alongside with the scissors to help cut the hair
- 8.** Most haircuts are done on wet hair
