

Hand Sewing

Across

- 2. This is what you sew together. In sewing, we do NOT call it cloth.
- 5. What do you call the sewing notion that has a sharp point on one end and a plastic or glass ball on the other?
- 6. Use this to stitch fabric together. It has a sharp point on one end and an eye on the other.
- 9. The _____ stitch is made along the outside edge of the fabric and it wraps around the entire edge of the fabric.
- 10. The _____ stitch consists of a line of small even stitches that run in and out through the fabric without overlapping.

- 12. The back or reverse side of fabric is called the _____ side.
- 13. You should always neatly _____ your fabric when you clean up each day. You should never wad or crunch it up.
- 14. We use this to sew. It is usually made of cotton and is found on a spool. In sewing, we do NOT call this string.

Down

- 1. This strong stitch consists of a line of small even stitches that overlap, making the stitches on the front of the fabric look like a solid line.

- 3. The _____ stitch involves stitching a small piece of fabric onto a larger one.
- 4. You must store unused pins in a _____ (two words).
- 7. Use these to cut fabric. They are bigger and have one small hole and one larger hole.
- 8. Use these to trim thread or cut small amounts of fabric. They have two identically-sized holes.
- 11. The side of the fabric that has the print is called the _____ side.
