

Name: _____

Date: _____

Heart

Across

2. deepest layer of the heart wall
 4. What is the thickest layer of the Heart wall?
 5. Purkinje fiber system
 7. Ventricular depolarization
 9. Supplies the systemic circuit with oxygenated blood
 13. coming together
 16. Inferior hollow chamber

18. The Heart rests on this organ

19. Flat lining
 20. Superior hollow chamber
 22. Beams of flesh

Down

1. Semilunar valve
 3. Slow heart rate
 6. Atrial depolarization
 8. What decreases friction as the heart moves?

10. Joins pacemaker cells with contractile cells

11. Majority of cardiac muscle cells
 12. shape of the heart
 14. What is the pericardium?
 15. Electrocardiogram
 17. Atrioventricular valve
 21. Ventricular Repolarization

Word Bank

Endocardium	Atypical Pacemakers	Ventricles	P Wave	Diaphragm
Trabeculae carneae	Atrium	ECG	Tricuspid	T Wave
Anastomoses	Asystole	Bradycardia	Sac	Intercalated discs
Contractile	Pulmonary	Cone	Myocardium	Aorta
QRS Complex	Pericardial Fluid
