

Heredity Revision

Across

1. The observable characteristics or traits of an individual
3. Has two alleles the same
7. The term used to describe the complete set of chromosomes in a cell
11. Mitosis is a type of cell division that is for replacement, growth and
12. The complementary base pair for adenine
15. what organelle stores water

16. The complementary base pair for Thymine
17. A protein that acts as a catalyst in chemical reactions
19. The complementary base pair for Cytosine
20. when the magnification is doubled the field of view is....

Down

2. What does DNA stand for
4. The complementary base pair for Guanine
5. The T in PMAT stands for..
6. what cell sends and receives signals

8. variation of a gene
9. What does the P in PMAT stand for
10. What is DNA in its coiled form called when it is not replicating
13. Which undergoes PMAT twice, Mitosis or Meiosis
14. An allele of a gene can either be homologous recessive or homologous ...
18. type of slide used to view moving aquatic organisms
