How Global Migration Can Promote Stability, Growth and Development Within and Between Countries Through Flows of People, Money, Ideas and Technology

**Across**

**8.** A transfer of money by a foreign worker to an individual in their home country.

**10.** The extent which people's needs and desires are met. Social, psychological or physical

**Down**

**1.** An increase in the amount of goods and services produced per head of the population over a set period of time

**2.** The concept of ideas, knowledge and values being transferred from migrants abroad to their families and communities in their home country.

**3.** The ability to access services and goods. Includes: food, water, clothes, housing

**4.** Those who seek work and social opportunities in another country, and send money back to their country of origin

**5.** An increase in the standard of living and quality of life

**6.** A large group of people with a similar heritage or homeland who have since moved out to places all over the world. E.g. Kurds.

**7.** The state of being stable

**9.** The movement of people from one place to another
