

# Industrial Revolution

## Across

3. A large building in which machinery is used to manufacture goods

5. The Industrial Revolution began here

7. Cheap and efficient process for making steel was the \_\_\_\_\_ process

8. nonviolent refusal to continue to work until a problem is resolved; people went on \_\_\_\_\_ (starts with an "S")

12. The spinning \_\_\_\_\_ was invented by James Hargreaves and allowed a worker to spin 8 threads at a time

13. The idea that society should be based on public ownership and communal control of property

15. Eli Whitney invented a machine for cleaning \_\_\_\_\_ seeds

16. An economic system based on private ownership

## Down

1. The \_\_\_\_\_ movement forced farmers to move to cities

2. Root word is "urban" and means that people moved from farms to cities as there was an increase in the number of people living in cities

4. Idea that government should play as small a role as possible in economic affairs with a "Government hands-off approach"

6. Home based manufacturing was called a \_\_\_\_\_ industry

9. Multifamily apartments, usually dark, crowded, and barely meeting minimum living standards were \_\_\_\_\_ buildings

10. James Watt improved the \_\_\_\_\_ engine to generate power

11. The major factors of production are owned by the government or public and operate for the welfare of all with more government control

14. Workers were tired of long hours, child labor, and low wages, so they joined and formed \_\_\_\_\_
