

Integrated I Vocab Semester I

Across

- 4. lines that have the same slope
- 6. the point in which a line/curve crosses the y-axis
- 9. a function that shows dramatic growth or decay over time
- 10. the set of output values
- 11. a relation in which there is only one output for every input

Down

- 1. a function that forms a straight line when graphed
- 2. lines that have negative reciprocal slopes
- 3. a set of ordered pairs
- 5. the set of input values
- 7. two expressions that are not equal
- 8. the change in y-values divided by the change in x-values
