

Intro to Immuno Original

Across

2. Substance causes an immune response by itself
 6. Antibody found in breast milk
 7. Can phagocytise
 8. Number of PRR families
 11. Series of proteins that enhance host defence mechanisms
 16. Ab protects against parasitic infection
 17. Ab that can cross the placenta
 18. Largest Ab

20. Substance that binds to Ag to increase rate of action of phagocytes

21. TCR found on 5% of T cells

22. System that first begins the fight against invasion

Down

1. Blocks binding of Ag in RER
 3. Cytokine that interferes with viral replication in a cell
 4. Homodimer chain set in TCR complex
 5. Most researched PRR family

9. Protein tested in the laboratory as indicator of inflammation

10. Extracellular molecule consisting of collagen and lectin

12. Viruses are presented in me

13. Acquired immunity

14. Other type of DC

15. Stabilises

TCR-peptide-MHCII complex

19. Can act as a filter
