

Name: _____

Date: _____

Introduction to pharmacology - Oxygen administration

Across

5. Abnormally slow breathing

7. Mask that delivers a more precise level of oxygen controls amounts of oxygen delivered

10. This condition occurs when air leaks into the space between the lungs and chest wall.

11. Blue discolouration of skin and mucous membrane

13. Simple mask and a small reservoir bag attached to the oxygen tubing connecting to the flow meter

14. Abnormally rapid breathing

Down

1. Cessation of breathing

2. The addition of heat and moisture to a gas.

3. A noninvasive device that can be used to measure oxygen saturation

4. Provide oxygen according to target saturation rates to achieve normal or near normal oxygen saturation levels

6. Low arterial oxygen tension/ low oxygen in the blood.

8. 78% of atmospheric air is composed of this

9. Low oxygen level in the tissues

12. 21% of the atmospheric air is composed of this
