

Name: _____

Date: _____

It's all fun and games with rod-shaped bacteria! (specie name)

Across

2. I was first grown in pure culture in Australia. I love the acidity of your gut

4. I am not a fish and I live in birds

8. I love the cold, raw dairy and caramelized apples (yum). Remember when you ate cantaloupes in 2011?

11. I am a "pest" who lives in pigs and caused a plague spread by rats

13. Catch me and my friends on surfaces in the hospital. If you grow me I glow yellow-green (Go Packers)

14. I am very friendly and can be found in your gut or in yogurt

15. Ignore me in most blood cultures. Think bioterrorism and Koch's postulates

16. Careful with that canned soup! abracadabra: your wrinkles will disappear!

Down

1. I live in your but sometimes I travel down to your bladder. Don't hate me for shutting down chipotle in 2015

3. how do you like bumps on your face? I make a compound that smells like body odor

5. I live in your gut but I love vacations in your lungs. I fix nitrogen to make plants grow!

6. I snuck onto the international space station in 2018 but most times I live in your gut

7. I cause bread to bleed and was discovered in Italy

9. Catch me after a dental procedure. When I'm with my friends we look like hyphae

10. I was discovered in Japan and cause "the runs"

12. Oysters are awesome. I can glow in water (bioluminescence)
