

# Lab Safety

**Across**

- 2. Always wear safety \_\_\_\_\_ when working with chemicals.
- 8. Follow all \_\_\_\_\_ given by the teacher
- 10. \_\_\_\_\_ do an experiment without permission.
- 11. Keep all \_\_\_\_\_ hair tied back, and safe from flames.
- 12. Use the \_\_\_\_\_ station to wash your eyes, if a chemical splash into your eyes.
- 13. Only the \_\_\_\_\_ can clean up broken glass.

- 14. \_\_\_\_\_ all lab instructions carefully before starting your work.
  - 15. No \_\_\_\_\_, running, or horse-playing in a lab.
- Down**
- 1. Lab safety is mostly using good \_\_\_\_\_ sense to protect yourself and others from harm.
  - 3. Keep all \_\_\_\_\_ cords, wires, and other appliances away from water.
  - 4. Your \_\_\_\_\_ should completely cover your feet. (no sandals)

- 5. Tell the teacher if you have \_\_\_\_\_ or chipped glassware.
- 6. Wear an \_\_\_\_\_ for clothing and body protection.
- 7. Roll up or don't wear \_\_\_\_\_ sleeves that could catch fire.
- 9. Handle \_\_\_\_\_ tools and heated containers carefully
