

Name: _____

Date: _____

Life in Earth's ocean

Across

- 2. Area past the continental shelf
- 4. When some organisms use energy to make food
- 8. Movement of nutrient-rich bottom water to the oceans surface
- 12. Where light doesn't penetrate through the water
- 13. Most diverse marine biome
- 15. A mix of freshwater and saltwater
- 16. Open water above the ocean floor

17. Portion of the ocean that lacks sunlight

18. The different parts of the ocean

19. Water where fresh water and salt water meet

Down

- 1. Plants use this to make food
- 3. Living and non-living organisms things in saltwater
- 5. How much salt is in a liquid
- 6. Technology that allows us to explore the deep parts of the ocean
- 7. Cracks on the ocean floor where magma heats up the bottom
- 9. An area that stretches so far you can see the point on continental shelf
- 10. Patterns created by the ocean
- 11. Bottom of the marine ecosystem
- 14. Portion of the ocean where sunlight can enter through
