

Linear Equations

Across

- 5. The point where the axis meets.
- 7. This is the pair of numbers used to locate a point.
- 9. This is also called a graph.
- 10. The M in the equation $y = mx + b$.

Down

- 1. This is the form shown as $Y = mx + b$.

2. This is an equation that is a straight line on a graph.

3. This is the form shown as $Ax + By = C$.

4. This is the B in the equation $y = mx + b$.

6. The horizontal line on a coordinate plane.

8. The vertical line on a coordinate plane.
