

Linear Equations

Across

2. This is formed by the intersecting x and y axis.
5. This equation is written as $y=mx+b$.
8. What is the change in y over the change in x?
10. What is the horizontal axis on a coordinate plane?

Down

1. This is an equation written as $Ax+By=C$.
3. This is an equation that forms a straight line when graphed.
4. This is what y is when x is at zero.
6. This is the point where the x and y axis cross.
7. These are the sets of numbers that represent a specific point on the graph.
9. What is the vertical axis on a coordinate plane?
