

MATTER IN OUR SURROUNDINGS

Across

2. Conversion of solid to vapours and vice versa.
 3. Property to flow
 7. Area of surface exposed
 9. Cooling of vapours into liquid
 12. An SI unit of temperature

13. Inter mixing of particles.

14. Compressible means change in state of matter by applying -----.

15. Conversion of solid into liquid

Down

1. Hidden heat
 4. Conversion of Liquid into vapours

5. Moisture present in air

6. Anything that has mass and occupies space.

8. Conversion of water into ice

10. Have fixed shape and fixed volume.

11. Particles per unit volume
