

# MCO 204 Chapter 3 ICD-10-CM Guidelines

## Across

4. A diagnosis is coded as \_\_\_\_\_ if the provider documents a "borderline" diagnosis at the time of discharge

8. When coding acute and chronic conditions and both appear at the same indentation level in the Alphabetic Index, sequence the acute code \_\_\_\_\_.

9. An \_\_\_\_\_ note means "NOT CODED HERE!"

10. A \_\_\_\_\_ code is a single code used to classify 2 diagnoses.

11. The residual effect after the acute phase of an illness or injury has terminated.

12. Certain ICD-10-CM categories have applicable \_\_\_\_\_ characters.

## Down

1. To select a code, you must first locate the term where?

2. The letter 'X' is used as what at certain codes to allow for future expansion?

3. The abbreviation 'NOS' is equivalent of \_\_\_\_\_.

5. What word means "underlying condition"?

6. "See" and "\_\_\_\_\_" indicate that another term should be referenced.

7. After locating a term in the Alphabetic Index, where must you verify the code?
