

Macromolecules

Across

4. Greasy, oily, and waxing texture

8. Contain amino acids

11. Speed up a chemical reaction

12. One or more double bonds

13. Monomer of a carbohydrate

14. When proteins unfold exposed to wrong temp or pH

Down

1. Substrates bind to this part

2. Made of carbon hydrogen and oxygen ratio 1:2:1

3. Test for simple sugars such as glucose

5. Afraid of water

6. Red Indicator used for lipids

7. Ratio of a carbohydrates

9. No double bonds

10. Indicator used for starch
