

Name: _____

Date: _____

Macromolecules

Across

- 1. Monomer of proteins (2 words)
- 5. Example includes ATP (2 words)
- 7. Monomer of a carbohydrate
- 8. Macromolecule not soluble in water
- 9. elements involved are C,H,O,N

- 10. Protein that accelerates chemical reactions

Down

- 2. Example of a lipid that is involved in the cell membrane
- 3. Monomer of a lipid
- 4. Bonds the form proteins (2 words)
- 6. Most important element in organic molecules
