

Manufacturing

Across

- 8. Computer Numerical Control
- 12. 3D Printing
- 13. Computer controlled machines
- 14. A device that can function without manual input
- 15. The part of a manufacturing process that checks for the desired quality

Down

- 1. Made 24/7
- 2. Taking away from object to make a product
- 3. Made for a specific reason or person usually expensive
- 4. Identical parts for the same purpose
- 5. Made in small amounts with flexible manufacturing

- 6. Products made in large amounts
- 7. Material made out of multiple material
- 9. Doesn't have iron (Non-Magnetic)
- 10. Limited capacity means less products.
- 11. Metal containing iron (magnetic)
