

Mass, weight and gravity

Across

- 1. The amount of stuff in an object can also be called this
- 4. Mass doesn't do this, no matter where it is
- 8. Mass is measured in these units
- 9. Matter is made up of these tiny things

- 10. the pull of gravity is a force of this
- 11. Weight is this
- 12. A measurement of weight (force)

Down

- 2. I feel lighter on the moon because this is less than on Earth

- 3. A mass has more of this where gravity is bigger
- 5. Gravity decreases as this increases
- 6. Gravity does this on objects
- 7. What describes the amount of stuff in an object
