

Math Vocab Crossword

Across

- 6. A relationship that when graphed forms a straight line through the origin.
- 7. When one value decreases as the other value increases
- 9. The horizontal axis.
- 10. A graph of plotted points that show the relationship between two sets of data.

- 11. A relationship where each input has exactly one output.
- 12. Rise over run. Steepness of a line.

Down

- 1. When the x and y values in a scatterplot increase
- 2. The point where a line intersects the y-axis
- 3. How to tell if a relation is a function from a graph.

- 4. When data seems to be "gathered" around a particular value.
- 5. When the x and y value in a scatter plot has no relationship.
- 8. A value that "lies outside" (is much smaller or larger than) most of the other values in a set of data.
