

Math Vocabulary

Across

- 3.** angle over 90°
9. If $A=B$ A can substitute for B
11. Coplaner lines that never intersect
12. angle under 90°
13. point of concurrency of 3 angle bisectors
14. point of concurrency of medians

15. see picture

16. see picture

18. angles in same position

20. $A=A$

Down

1. $AB + BC = AC$

2. rule excepted without proof

4. set of all points two figures have in common

5. $45^\circ + 45^\circ =$

6. WW.

$\angle RSP + \angle PST = \angle RST$

7. see picture

8. see picture

10. one dimension

17. see picture

19. two dimensions
